

TEXPROCIL EXPORT AWARDS 2021-2022 & 2022-2023

TEXPROCIL

THE COTTON TEXTILES EXPORT PROMOTION COUNCIL

Exporting Excellence

texprocil.org

Indian Cottons, Global Reach

SECRETARY, MINISTRY OF TEXTILES

It gives me immense pleasure to learn that the leading exporters of cotton textiles are being felicitated at the Annual Award ceremony organized by the Cotton Textiles Export Promotion Council (TEXPROCIL) at Mumbai.

I would like to congratulate all the Award Winners for their excellent performance and expect them to set even higher standards in achieving the goals envisaged for the growth of our textile exports. I am sure the exceptional spirit and entrepreneurial skills of our exporters will continue to flourish and contribute to the success of the textiles sector in the future.

I appreciate the resolute efforts of the exporters towards consolidation of trade and enhancing competitiveness of our exports. There is however a need to further focus on enhancing productivity, improving quality and delivery systems.

I also congratulate TEXPROCIL for their commendable efforts towards promoting exports of cotton textiles from India and extend my best wishes for their future endeavours.

Rachna
Rachna Shah, IAS
Secretary, Ministry of Textiles
Government of India

DIRECTOR GENERAL, D/O DGFT, MINISTRY OF COMMERCE & INDUSTRY

I am happy to learn that the Annual Export Award Ceremony is being organized by the Cotton Textiles Export Promotion Council (TEXPROCIL) at Mumbai to honour outstanding exporters of cotton textiles for their excellent performance during the years 2021-22 and 2022-23.

2. The Indian textiles & clothing industry is one of the mainstays of the national economy. I am happy to note that even in the face of recent market challenges across the globe, many of our entrepreneurs continue to persevere and pursue higher export targets. This growth has been accompanied by an encouraging shift in the composition of India's export basket from mass products to value-added products. In addition, there has been a geographical diversification of export destinations to include developing economies.

3. The exporting community needs to be commended for its tenacious resolve in these trying times and for the unflinching efforts to achieve a greater share of India's exports.

I congratulate all award winners for their excellent performance and convey my best wishes to TEXPROCIL.

TEXTILE COMMISSIONER, MINISTRY OF TEXTILES

I am happy to know that The Cotton Textiles Export Promotion Council (TEXPROCIL) is organizing its Annual Export Award Function in Mumbai, to felicitate the leading exporters of Cotton Textiles for their outstanding performance during the years 2021-22 and 2022-23.

Being strong and competitive across the value chain, the textiles industry has a pivotal position in the Indian economy. The industry has been growing significantly over the years taking advantage of opportunities opened up for the sector in the international markets. All our entrepreneurs need to be commended for progressively adapting to the advancements in technology in order to meet with stringent global standards.

I am highly pleased to note that our vibrant entrepreneurs are relentlessly pursuing higher export levels converting challenges into opportunities & strengthening assurances to the final consumer. On this occasion, I congratulate the Council for its efforts to recognize excellence amongst our exporters and reward them for their meritorious performance. Best wishes with the expectation that export performance bench mark should keep moving up!

TEXPROCIL EXPORT AWARDS 2021-2022 & 2022-2023

TEXPROCIL

THE COTTON TEXTILES EXPORT PROMOTION COUNCIL

Exporting Excellence

Textile Exports Heralding a bright future

Shri Sunil Patwari Chairman TEXPROCIL As we enter the midpoint of the current decade (2020-2030), the textile sector has shown resilience both in the domestic and export markets in the face of an unprecedented pandemic, unexpected geopolitical developments (conflicts in Ukraine, Middle East) rising inflation, unstable demand, and fluctuations in commodity prices.

On the external trade front while the overall Textile & Clothing exports in 2023-2024 from the country showed a marginal decline of (-) 3.24 percent, cotton textile exports recovered their momentum from the previous year to grow at a rate of 6.71 percent and reached US \$ 11.68 bn.

Going forward, by the year 2030, Government has set a target of US \$ 100 billion for exports and envisioned a market size of US \$ 250 billion for the industry as a whole from the current level of US \$ 169 billion.

While these targets look imposing they are very much achievable, considering the expanding economy, availability of raw material, skilled manpower and rising consumption trends, Global Textile & Apparel trade is also expected to grow at a CAGR of 4 percent to reach US \$ 1.2 trillion by 2030 from a level of US \$ 910 billion in 2021.

Out of the overall target of US \$ 100 billion for the Textile & Clothing

(T&C) sector, cotton textile exports are targeted to reach US \$ 25 billion by 2030 growing at a CAGR of 13 percent. With the exports of cotton textiles already reaching around US \$ 12 billion in the fiscal year 2023-2024, the sector is well poised to achieve the target of US \$ 25 billion.

In order to achieve these targets, India needs to focus aggressively on maintaining its competitiveness in the cotton-sector by leveraging its advantages as a sustainable fibre. In this regard, measures to improve the yield per hectare, encourage better farm practices through launch of Technology Mission on Cotton, will be of great importance.

Further the launch of new brand of Indian Cotton namely 'Kasturi Cotton Bharat' has created awareness regarding quality, purity, durability amongst the stakeholders. The program has also shown that the winners can get a better value as compared to conventional cotton. In the years to come, "Kasturi Cotton" is going to be game-changer.

In the next half of the current decade, the textile industry is eagerly awaiting the signing of the Indo-UK FTA and a possible FTA with the EU. These FTAs are expected to give an impetus to exports as the disadvantages currently being faced by Indian exporters ranging between 9.6 to 12 percent will be removed.

Apart from the above, a modified Product Link Incentive (PLI) scheme, development of PM Mitra Parks with plug & play infrastructure will enable India to become a hub of fabric production and value addition.

Creating a vibrant eco-system for e-commerce should also expand the avenues for marketing.

All these factors well supported by favourable Government policies should propel Indian textile exports to higher levels. The textile industry can look forward to a very bright future. ■
