What is ICETAB?

- It is a mobile tablet device.
- Shall be used by Customs Officers for facilitating quick upload of the examination report on the go in real time basis and making the examination process transparent and faster.
- Contains an exclusive Mobile Application to enable examining officers to –
 - a) view RMS Instructions, Examination Order and Bill of Entry (BE) details along with other supporting documents;
 - b) capture upto four images of cargo examination for integration with the Bill of Entry;
