#### Sub: Webinar on Sensitizing the Trade on the new EU mandates that will impact textile exports to Europe

Dear Member,

The European Union's new sustainability mandates are set to significantly impact the global textile industry. These regulations focus on promoting eco-friendly practices, reducing carbon footprints, managing waste discharge, and fostering recycling & circularity in textile production. As one of the largest exporters of textiles to the EU, it is crucial for stakeholders in the Indian textile sector to understand and align with these mandates.

The Council is organizing the webinar to provide an overview of the EU's evolving sustainability framework, especially in the context of ESPR & DPP and explore

strategies to stay competitive in this new regulatory landscape.
