Sub: JNCH introduces an option to allow amendment during final assessment of bill of entry for bulk cargo

Dear Member,

JNCH vide Public Notice No. 18/2025 dated 13.02.2025 ([copy enclosed](#)) has introduced an option to amend details during the final assessment of bills of entry for bulk and liquid bulk cargo.

Earlier, EDI system lacked a provision to update invoice value and quantity as per the final invoice and Final Analysis Certificate.

To address this, the system has been upgraded to permit such amendments during finalization. While unit price amendments were already enabled during the finalization of bills of entry, the updated module now allows officers to amend the quantity, invoice number, freight, and miscellaneous charges for bulk and liquid bulk cargo. The system will then recalculate the assessable/invoice value based on the revised details.
