- Despite the ongoing issues, Bangladesh continues to remain the 2nd largest manufacturer of garments in the world and supplies to more than 200 countries.
- RMG exports from Bangladesh has grown from USD 4 billion in 2001 to USD 47 billion in 2023 at a CAGR of 12%. Exports of RMG from Bangladesh is estimated to reach USD 100 billion by 2030.
- Bangladesh imports more than USD 16 billion of Textiles & Clothing from the world, 98% of which is fibre, yarn and fabrics. Thus, it represents a huge opportunity for Indian exporters of yarns and fabrics including Denims.
- Bangladesh enjoys tariff benefit with most of the top importers of garments and hence presents a huge potential for Indian exporters of yarns and fabrics including Denims.
- Exclusive India Pavilion for Indian exhibitors at the fair with facility for a VIP Lounge for one-to-one meetings.

India's exports to Bangladesh have grown by more than 20% in FY 2024-25 as compared to the previous year. The Council had invited nearly 70 leading companies from Bangladesh for Bharat Tex 2025. Intex South Asia would be an excellent opportunity to connect with them and others once again.
