Opportunities through India – UK FTA

The recently signed India-UK Free Trade Agreement (FTA) offers substantial

opportunities to strengthen bilateral trade and investment. It improves market access for Indian textiles and apparel, with a duty-free access anticipated from 2026. This makes the current show an ideal platform for Indian exporters aiming to enter the UK hotel suppliers market. With the FTA expected to come into effect next year, Indian suppliers of home textiles can take advantage of this window to initiate sampling, ensuring their products are competitively priced once the agreement is fully implemented.
