

E-Serve No.: 32 of 2026 | Date: January 28, 2026

Sub: Updation of Split Indicator Flag in SCMTR application

Dear Member,

This is to inform you that JNCH has issued Public Notice No. 15/2026 dated 22-01-2026 ([copy enclosed](#)) regarding Updation of Split Indicator Flag in SCMTR application.

The above Public Notice is in connection to the Advisory No. 03/2026 issued by ICES, Directorate General of System (DGoS), CBIC where in it has been informed that - Sometimes, one shipment covered under the same Bill of Lading arrives or moves in parts using different transport modes. Earlier, when such split shipments were reported in the SCMTR system, the system showed an error and did not allow filing of the second message. Because of this problem, Authorised Sea Carriers (ASC)/Authorised Sea Agents (ASA) had to file such cases using the old IGM 1.5 version.

To resolve this issue, DGoS has now added a new option in the application of SCMTR 2018 called "Split Cargo Indicator". By marking this indicator as 'F', it means that the final part of the shipment has been completed.

Members are advised to follow the procedure explained in the attached Public Notice so that split shipments can be filed smoothly in the SCMTR system without errors.

Regards,

Dr. Siddhartha Rajagopal
Executive Director
