To: Members of the Council

Sub.: Market Survey of Textile Sector in Brazil

Dear Member,

The Consulate General of India, Sao Paulo, Brazil in collaboration with M/s Hot Marketing conducted a **Market Survey of the Textile Sector in Brazil** ([click here to download a copy of the report](#)).

Brazil is an important market for Indian textile exporters, with USD 375 million exports of textiles and clothing products to the country in 2019. India is a major supplier of man-made fabrics, cotton textiles as well as handmade textile materials, knitted fabrics, readymade garments, clothing accessories etc. to Brazil.

The Market Survey report presents an overview of Textiles Market in Brazil, with details of item-wise exports and imports from Brazil for a better understanding of demand of products in the market as well as the strength of local industry. It may be noted that Brazilian textile industry accounts for 2.4% of the global production of textiles and 2.6% of the world production of garments.

We hope that the report will be helpful in exploring business opportunities in Brazil.

Regards,

N. Ravindranathan

Director
