Dear Friends,

During the first fortnight, the Council continued with its program of exploring emerging markets, vigorously followed up with the Government on export promotion policies amidst widespread concerns in the trade & industry regarding the status & future of existing export benefits.

At the same time the Government released export data for the month of August which showed an increase over the previous year same period. The WTO also released an optimistic forecast regarding growth in world trade in 2017 & 2018.

Before we take up the other issues it is important for the members to know the steps taken by the Council to follow up on the various policy issues like Duty Drawback rates, ROSL rates, revised Foreign Trade Policy (FTP).

Follow-up on various trade policy issues

It is a matter of deep concern that there is an inordinate delay in the refund of GST on exports. Exporters are yet to receive refunds on goods exported by them in July 2017. This is causing serious working capital problems for the exporters.

The Council has taken up this matter with the Government and has suggested that refunds on exports should be given immediately after shipment and the EGM is filed without insisting upon filing of monthly returns as a pre-condition.

With regard to fabrics, we have proposed to the Government to allow refund of accumulated Input Tax Credit under GST. The Council has also requested the Government to introduce a mechanism under which merchant exporters are allowed to procure goods for exports from the manufacturer without payment of GST.

I am aware exporters of Made ups are keenly looking forward towards the ROSL rates w.e.f October 1, 2017. The Council has provided all the data and workings to the Drawback Department for ROSL rates. We hope satisfactory ROSL rates will be notified soon for Made ups.

The Drawback Committee does not have the mandate to examine embedded State levies. The Council has requested the Government to provide the necessary mandate to the Drawback Committee to consider embedded Stat levies while recommending the ROSL rates.

With regard to the Mid-term Review of the Foreign Trade Policy 2015-20, the Council has sent its proposals to the Government. I hope the Council’s proposals will be accepted and incorporated in the amended Foreign Trade Policy which is expected to be announced very soon.

Exporters are currently going through a turbulent situation.
CHAIRMAN’S MESSAGE

Low demand from major markets combined with other factors such as the strengthening of Rupee against the US Dollar and the likely reduction in the export benefits under the GST regime has created serious situations for a large number of exporters.

To mitigate the situation to some extent for the exporters, the Council has proposed to extend the transitional provision for the All Industry Rates of Duty Drawback till 31.3.2018.

PARTICIPATION in IRAN-TEX, TEHRAN

The Council took part in Iran-Tex trade fair during 4th to 7th September, 2017 and facilitated the participation of six Indian companies.

IRANTEX offered a unique opportunity for exporters to showcase latest range of textile products, meet leading buyers and negotiate profitable business deals.

Iran is a US$ 3 billion market for Textiles & Clothing. Major countries who are supplying textile products to Iran are China, Korea, Germany, Turkey, India etc. India is the fourth largest exporter of cotton textiles into Iran. India’s market share is around 4% and hence the Iranian market offers substantial scope for Indian exporters.

The lifting of international trade sanctions on Iran has opened up vast opportunities for exports of Indian textiles products to Iran including yarns, fabrics, home textiles, garments, etc.

EXPORT DATA (April-August 2017)

India’s exports grew to US $ 23.81 billion in August 2017, from US $ 21.59 billion during the corresponding month of 2016, as per official data recently released by Ministry of Commerce showing a growth of 10.29%.

During August 2017, the exports of cotton textiles grew by 11.92% over the previous year same period. On the other hand, readymade Garments during this period grew by 0.56%. Exports of cotton textiles during the period April- August 2017 recorded a growth of 2.05% over the same period last year. Overall, the textile and clothing exports have grown by approx. 3% during the period April - August 2017.

WORLD TRADE FORECAST by WTO

The WTO has also released it’s forecast for World merchandise trade which is expected to grow in volume terms by 3.6% in 2017, instead of 2.7% as estimated earlier.

Stronger-than-expected growth is seen to be driven by Asia and North America, where import demand is recovering from weak results in 2016, which spurred intra-Asia-trade as demand was transmitted through regional supply chains. Financial conditions in Asia are also improving compared to the volatile first quarter of 2016 thus contributing to business and consumer confidence. The WTO Report also contends that export orders are strengthening signaling a period of sustained trade momentum in second half of 2017.

WAY FORWARD

Friends, while global trade growth is expected to rebound in 2017, trade and industry in India is slowly seeing the emergence of “green shoots” of growth.

The exports of Cotton textiles from India to the World, during the period January- June 2017, have recorded an overall growth of 3% along with the US and the EU markets recording a positive growth of 12% and 7% respectively.

While these signs of recovery augur well for the growth of the sector, we must also bear in mind that shifting globalisation patterns are destined to reshape the trade development strategies. What is needed is to update our policies along with improvements in the country’s infrastructure, raise our production capabilities and job creation strategies to meet the demands of a more challenging trade environment.

Ujwal R Lahoti
Chairman

The Council organized participation of its members at IRANTEX 2017 held in Tehran, Iran from 4th to 7th September 2017. IRANTEX – a textiles exhibition that has gained reputation - was started in 1989 and this year, it was the 23rd edition.

About IRANTEX
- IRANTEX is an exhibition for textiles products. This event showcases products from Textiles including Fabrics, Home textiles & Yarns industry.
- IRANTEX was started in 1989 and this year, it is the 23rd edition. The fair has gained reputation and attracts buyers from Iran and other Countries.

Product Profile

Textile Groups:
- Yarn • Fiber • Dyestuff • Raw Materials

Home Textiles Groups:
- Curtains & upholstery • Shutters • Towel & Bath Gowns
- Kitchen, Bath & Toilet Textiles Accessories • Table Cloth

Bedding Products:
- Blanket • Mattress • Bed Sheet • Pillow & Pillow Case
- Bed Covers • Accessories

Apparel Groups:
- Men • Women • Children • Fabrics

Textile Machineries Group:
- Textile Machineries • Knitting Machinery • Sewing Machines
- Embroidery Machines • Apparel Machines • Accessories

Visitors Profile
Profile of visitors included buyers, importers, manufacturers, traders, distributors, wholesalers & retail consumer.
Iranian market for Cotton Textiles

India is the fourth largest exporter of cotton textiles to Iran as per the following data:

Market Potential In Iran For India

- Iran is a US$ 3 billion market for Textiles & Clothing. Major countries who are supplying textile products to Iran are China, Korea, Germany, Turkey, India etc. India’s market share is around 4% and hence the Iranian market offers substantial scope for Indian exporters.
- The lifting of international trade sanctions on Iran has opened up vast opportunities for exports of Indian textiles products to Iran including yarns, fabrics, home textiles, garments, etc.
- Iran has announced that it will resume import of fabrics from countries producing the best quality material.
- There is good potential for trade with India in Raw materials like fibres and also Cotton and Poly Cotton Yarns. As Tehran is a trade centre, there is ‘huge’ export potential” in Iran.
- Iran’s GDP is expected to grow by 5pc in the next two years following the lifting of sanctions and exports of textiles to the Iranian market likely to increase in the near future.
- Limited cotton production in Iran limits production of cotton textiles products like yarn, fabrics and home textile, thereby, creating demand for imports of these items.
- During the embargo period, no new investments were made especially in the weaving sector. Also the existing production plants are yet to be modernized. Therefore, there is a gap in demand and supply in Iran particularly for dyed/patterned fabrics & home textiles.

TEXPROCIL Organised Participation

Companies who had participated in the exhibition through the Council had displayed a wide range of textiles products such as yarn, fabrics and home textiles. All the companies had reportedly established good contacts with potential buyers in Iran and nearby countries. Also, TEXPROCIL booth at the exhibition attracted many buyers and representatives from various textiles associations from Iran and other countries. Shri Vinay Kumar, Counsellor, Indian Embassy in Iran visited the exhibition and interacted with all the Indian Companies. Shri A. Ravi Kumar, Joint Director, TEXPROCIL briefed him regarding the potential of the Iran market and the opportunities that the country offers for exports of textiles from India.

WAY FORWARD

Considering the growing potential to export textiles to Iran and also taking into account the urgent need of the exporters to diversify into new markets, TEXPROCIL will be participating in IRANTEX and other textiles exhibitions in Iran in future. The Council is also planning to organize Buyer Seller Meets in Iran besides exploring the possibility of taking a delegation for the benefit of its members.

E Serve No. 105 of 2017                         September 14, 2017
Circular No.EPS/37/2017-18
To: Members of the Council
    Sub: ROSL Scheme – Furnishing of Bank details to the Customs

Dear Member,

We have been receiving representations from our members pointing out that their ROSL claims against exports of Made ups remain pending at the Customs.

In this regard, the Ministry of Textiles has vide letter dated September 13, 2017 advised the Council to inform its members to furnish correct bank details to the Customs at the respective ports to expedite disbursement of ROSL. A copy of the said letter is available at the Council’s H.O. for your information.

We would request you to please take a note of the above and do the needful.

In case of any difficulty, please get in touch with us.

Thanking you,

A. Ravi Kumar
Joint Director

---

EXPORTERS are facing problems during the initial days of the implementation of the new Indirect Tax regime GST. ‘The major area of concern for the exporters is the inordinate delay in the refund of GST”, said Shri Ujwal Lahoti, Chairman of The Cotton Textiles Export Promotion Council (TEXPROCIL). Exporters who had shipped their goods in the month of July are yet to receive their refunds of the Input Tax Credits or the IGST paid on export goods. This has caused serious working capital problems for a large number of exporters and has in fact threatened the very survival of many of the exporters. Since there no exemptions available at any stage under the GST law for exports, Shri Lahoti urged the Government to grant the refunds of GST on exports immediately after the Export General Manifest (EGM) is filed instead of the current requirement of linking the refunds to the filing of the monthly returns.

Exporters are also bearing the burden of embedded state taxes on the export products. Presently, the ROSL (Rebate of State Levies) Scheme provides for refund of state levies on export products in the case of Garments and Made ups. However, the scheme does not cover embedded state levies from the fibre stage to the Made ups stage. This is due to the fact that the Drawback Committee which has been constituted by the Government to recommend ROSL rates does not have the mandate to examine the incidence of embedded taxes on Made ups which is estimated to be approximately 2%. Shri Lahoti urged the Government to provide the necessary mandate to the Drawback Committee to examine the embedded state levies and recommend suitable ROSL rates for Made ups.

Since the delay in the refund of GST on exports combined with other factors like low demand from major export markets, strengthening Rupee against the U.S.Dollar and the likely reduction in the export benefits under the GST regime are causing serious problems and uncertainty for the exporters, Shri Lahoti urged the Government to extend the transitional provision for the All Industry Rates of Duty Drawback (AIR) and ROSL from September 30, 2017 to March 31, 2018.

Under GST, merchant exporters who contributes about 60% of the textiles exports, are at a distinct disadvantage compared to the manufacturer exporters as they are unable to get goods meant for exports from the manufacturers without payment of GST. There is no enabling document prescribed so far by the Government under which goods can be cleared by a manufacturer without charging IGST meant for exports by a merchant exporter against Bond/LUT, pointed out Shri Lahoti. TEXPROCIL has represented to the Government to introduce a mechanism under which merchant exporters are allowed to get goods from the manufacturers without payment of GST for exports, said the Chairman, TEXPROCIL.

TEXPROCIL invites participation to INTEX SOUTH ASIA 2017 exhibition

Dear Member,

The Cotton Textiles Export Promotion Council (TEXPROCIL) proposes to organize India Pavilion in Intex South Asia 2017 exhibition from 15th – 17th November 2017 at the Sri Lanka Exhibition & Convention Centre (SLECC), Colombo-10, Sri Lanka. Intex South Asia 2017, is organized by Worldex India Exhibition & Promotion Pvt. Ltd. in association with Sri Lanka Export Promotion Board and is endorsed by Joint Apparel Association Forum (JAAF).

Sri Lanka Textile & Clothing Industry

Sri Lanka is a preferred destination for high-end apparel sourcing across Asia, with its apparel export industry valued over US$ 5 billion being the most significant, highest industrial employment generator and the highest foreign exchange earner in the growing Sri Lanka’s economy.

Made in Sri Lanka label under “Garments without Guilt” is renowned across the world that works with the principles of ethical working conditions, free of child labour, free of forced labour, free of discrimination on any grounds, free of sweatshop practices, green factories, etc.

Sri Lanka is repositioning itself as a hub for supplier countries in the South Asia region and hence offers very good opportunity for increasing exports of yarn & fabrics.

In 2016, Sri Lanka imported about USD 2.95 billion worth of textile and clothing of which approximately USD 2.67 billion was in textiles. India’s share in the textiles imports was just USD 503 million. In cotton textiles, Sri Lanka imported almost USD 1.18 billion of which India’s share was just 29% amounting to USD 342.15 million. Import of cotton fabrics from the World contributed the highest share within the cotton textiles import basket with USD 992.27 million and India ranked 2nd with USD 253.08 million.

About 3rd Intex South Asia 2017 Exhibition

Fair Date : 15th – 17th November, 2017 (Wed-Fri)
Venue : Sri Lanka Exhibition & Convention Centre (SLECC), 12, D. R. Wijewardena Mawatha, Colombo-10, Sri Lanka
Opening Hours : 10 am – 6 pm (Last Day open till 5 pm)
Open to : Professional Trade Visitors only
(With pre-registration online or on-site registration)

Product Profile:

Major Exhibiting Countries:
India, Pakistan, Bangladesh, Sri Lanka, China, Hong Kong, Korea, Taiwan, Dubai, Australia, USA, Indonesia, Thailand, Turkey, South Africa and more.
