Dear Friends,

As per the provisional data released by the Ministry of Commerce, exports of Cotton textiles (Yarn, Fabrics & Made-ups) during the period from April to February 2018 reached US$ 9213.12 Million as compared to US$ 8969.04 Million during April to February 2017, registering a growth rate of 2.72%. During this period, the entire Textile & Clothing sector registered a negligible growth of 0.05%.

Recent studies, including the ‘Quarterly survey on Manufacturing’ published by FICCI and ‘Textile Sector Performance Update’ by Wazir Advisors also expected marginal improvements in export growth but the performance has not been very encouraging. Various factors like low domestic and export demand, exchange rate appreciation, increasing imports, excess capacities and shortage of working capital finance continue to constrain export efforts.

Despite these sluggish trends in export growth, we can only look ahead with hope and proactively pursue opportunities for further growth in various markets. Secondly, we also need to make concerted efforts to mitigate the difficulties faced by the exporters in claiming refunds under GST.

Thirdly, we need to develop “alternative schemes” to some of the existing export promotion schemes, considering the international challenge mounted recently by USA regarding their incompatibility with the WTO Agreement on Subsidies and Countervailing Measures (ASCM).

Continuing it’s efforts at exploring opportunities in various markets, the Council organised repeat participation in leading fairs / exhibitions in Korea and Egypt.

Preview in Daegu Fair, South Korea

Under the Indo-Korea CEPA, there is “zero” duty on import of fabrics, madeups, and garments into South Korea from India, thereby offering greater market access for Indian Textiles and Clothing. In order to further explore the potential for trade in textiles and clothing products, 10 Indian Companies participated in ‘Preview in Daegu Fair’ held during March 7-9, 2018 at Daegu, South Korea.

On this occasion, I along with a few of the representatives of participating Indian Companies visited some of the manufacturing facilities and met with Apex Textile Associations in Korea. Together, we made a survey of the preferences of Korean importers when it comes to sourcing fabrics and home textiles—including popular sizes ordered, packaging, content, colours, etc.

In our discussions with the Textile Associations, a need was felt to organise the visit of a delegation to further understand the prevailing buying pattern amongst the Korean importers especially of Home Textiles so as to enhance, trading opportunities for our exporters. The Council is working out the detailed
program in this regard, which will be intimated shortly. Members interested in exploring the Korean market may contact the Council for further details in the matter.

Cairo Fashion & Tex Exhibition, Egypt

India exported around US $342 million worth of textile and clothing products to Egypt in 2017. Cotton yarn was the dominant product in the export basket, accounting for US $163 million, followed by man-made yarn fabrics at US $121 million and cotton fabrics at US $25 million. Egypt enjoys a strategic location allowing companies to access Asia, Africa and Europe thus providing India with ample opportunities to increase its engagement in the global value chain. Further, Egypt has concluded many important FTAs which can act as a gateway for India to access growing markets in the Euro-Mediterranean and in the East and South African region.

Twenty three Indian textile firms showcased a wide range of products at the ‘Cairo Fashion and Tex Exhibition’ held during March 8-10, 2018 at Cairo, Egypt. The Indian pavilion at the fair was inaugurated by India’s Ambassador to Egypt, Shri Sanjay Bhattacharyya, along with Mr. Mohamed Abdel Salam-Chairman of Ready-Made Garments Chamber. In his inaugural speech, the Indian Ambassador said that he was optimistic about the growing Egyptian market for Indian cotton yarn and other fabrics.

GST Update

Even though a game changer in indirect taxation in India, the implementation of GST has led to many issues which require clarifications on a continuous basis. In a significant clarification, the CBEC has recently issued a Circular No. 37/11/2018-GST dated March 15, 2018, stating that the supplies of export goods made by the manufacturers to the merchant exporters at a concessional rate of 0.05% / 0.10% is optional. Further, the Circular has clarified that the merchant exporter can take credit of the 0.05%/0.10% GST paid by him. The said Circular has also clarified on many other issues faced by the exporters in a comprehensive manner. I would request all the members to familiarize themselves with the same and contact the Council for necessary guidance.

There are however still some areas that need to be addressed. For instance, exporters cannot get refund of transitional credits when they export under LUT. There are many such cases where the transmission of validated data by the GSTN to ICE -GATE website has not been carried out even after the exporters have rectified the errors. The Council has taken up all such issues with the Government and hopefully they will get resolved.

I would also request all our exporter friends to properly understand the procedures / documentation to be followed so as to get the refund of IGST and Input Tax Credits without any delay.

GST Seminar

As part of the Council’s endeavour to develop a better understanding of the GST concept amongst its members, the Council organised a Seminar on GST at the Council’s H.O. in Mumbai on March 13, 2018. The interactive seminar was conducted by Mr. M. P. S. Sengar, Assistant Commissioner (Retd.), GST & Central Excise, Mumbai who extensively covered the procedures to be followed for expeditious release of IGST refund claims and Input Tax Credits (ITC). The seminar was well attended and all the queries were addressed.

Developing Alternative Schemes

Friends, as we grapple with the domestic challenges, we are also facing up to the charge that our exports are heavily subsidised. In a bid to protect it’s domestic manufacturers, United States has recently contested that many schemes in the Foreign Trade Policy of India provide subsidies prohibited under the WTO’s Agreement on Subsidies and Countervailing Measures (ASCM).

The schemes that have been called for consultation at the WTO include Merchandise Exports from India Scheme (MEIS), the Export Oriented Units Scheme (EoUS) and sector specific schemes –including Special Economic Zones (SEZs), and Export Promotion Capital Goods Scheme (EPCG), etc.

The outcome of this consultation could have wide ranging ramifications for the industry that is exporting to not just the US but also the global market. While India would surely challenge the US contentions, this move is certainly a cause for concern for several exporters who depend on these schemes to remain competitive in the global market.

The need of the hour is to quickly develop ‘alternate schemes’ which are WTO compatible. These schemes could cover areas like ‘embedded taxes’, ‘transaction costs’ and ‘structural weaknesses’ in the textile and clothing sector. While the Council is actively engaged in suggesting alternate schemes to the government, I would appeal to all our member exporters to send in their views, suggestions or comments on the various alternate schemes that can be developed to become WTO compatible.

Summing Up

Friends, as we approach the end of the current fiscal year, we need to push our exports to the maximum so that we can consolidate our achievements this year. Let us all make a concerted effort, despite all the surrounding factors challenging our growth!

Ujwal R Lahoti
Chairman

The Council participated in the textiles exhibition “Preview in Daegu 2018” held in South Korea from March 7-9, 2018. 10 Indian Companies had participated in this fair through the Council.

The objective of participating in the fair was to capitalize on the Indo-Korea FTA, under which there is zero duty on import of fabrics, made ups, home textiles and garments into South Korea from India, thereby offering greater market access for Indian textiles into the South Korean market.

**About Preview In Daegu 2017**
Preview In Daegu is an established trade fair which takes place every year. The industry sectors covered in this fair are textiles (including yarn), home textiles, fabrics and Garments.

The fair which started in 2001 has over the years gained a reputation and attracts a large number of buyers from South Korea as well as from other Countries.

**Indian Exports of textiles to South Korea**
Exports of textiles & clothing from India to South Korea in 2016-17 was to the tune of US$ 364.29 million.

India is the 3rd largest exporter of cotton yarn to South Korea next to China and Vietnam. Exports of cotton yarn in 2016-17 was US$ 116.10 million.

India is the 3rd largest exporter of cotton fabrics to South Korea next to China and Vietnam. Exports of cotton fabrics in 2016-17 was US$ 82.98 million.
About TEXPROCIL Participation
Chairman, TEXPROCIL, Shri Ujwal Lahoti was one of the VIP delegates who inaugurated PREVIEW IN DAEGU 2018. Ms. Nayantara, Second Secretary, Indian Embassy in Seoul visited the fair on the first day. She interacted with all the Indian Companies and shared information regarding the Consumer Preferences in South Korea. All the Indian Companies expressed satisfaction and reported having established good contacts.

Meetings & Market Visits
On the sidelines of the exhibition, a delegation of exporters lead by the Chairman, Ujwal Lahoti visited the Home Textiles market in Daegu to understand the requirement of the South Korean buyer. The Council also had meetings with leading Chamber of Commerce / Associations such as Daegu Gyeongbuk Textile Industries Association(DTC), Daegu – Gyeongbuk Bedding Cooperative, Korea Textile Development Institute (KTDI), Korean Federation of Textile Industries (KOFOTI), Daegu Metropolitan City Investment & Trade Division and Korean Dyeing & Finishing Technology Institute (DYETEC) and had discussions to understand the requirements of the South Korean market for textiles.

Key Observations
Some of the key observations of the Council during its visit to South Korea for the fair as follows:
• Presently, South Korea is sourcing Textiles & Clothing products mainly from China.
• Since recent times, the awareness of the South Korean buyers about India Textiles & Clothing sector is increasing.

• There are not many factories producing Cotton textiles in South Korea. There has been an increase in the Korean market for Cotton textiles in 2017.
• India can supply wide width fabrics for Home textiles. Indian companies can supply in their own brand name.

Council in its efforts to diversify exports into new markets to promote exports of Cotton textiles will continue its focus on South Korea as a good market. The Council will be shortly taking a delegation of home textiles exporters to South Korea.

The Council is widely recognized by the South Korean Textiles Industry, associations and the Government agencies in Korea as interface between the Indian textile Industry and the Korean Textiles. The Council will strengthen this role in the future and play an active role in promoting exports of Cotton textiles from India to South Korea.

SEMINAR ON GST @ TEXPROCIL H.O.
in Mumbai on March 13, 2018

Council conducts Session on GST in Mumbai

The Council conducted a “Session on GST” at its auditorium in Mumbai on March 13, 2018 which was well attended by the exporters. The objective of conducting the Session was to update the exporters regarding the changes in the GST Laws & Procedures related to exports. Shri Sengur, who is a retired Assistant Commissioner (GST) conducted the Session. In his presentation, Mr. Sengur covered topics such as refund of IGST and ITC on exports and the E-Way Bill. During the Q & A session the participants raised clarification on various issues.

All the queries of the participants were suitably addressed. For more information or further queries on the subject, please write to us on email: ravikumar@texprocil.org

TEXPROCIL participation at Cairo Fashion & Tex Fair
Cairo, Egypt (March 8-10, 2018)

Visitors’ Profile
Wholesalers, chain stores, boutique owners, garment exporters & importers, agents & distributors, fashion designers, ready to wear manufacturers, department stores

India Pavilion and Texprocil stall
The Indian pavilion was inaugurated on 8th March by Ambassador H.E. Mr. Sanjay Bhattacharyya, along with Mr. Mohamed Abdel Salam- Chairman of Ready-Made Garments Chamber, Federation of Egyptian Industries and Mr. Mohamed El-Sherif - Chairman of Pyramids International Group.

The Ambassador along with the Chairman of Ready-Made Garments Chambers interacted with each of the participating Indian companies and wished them the very best for their endeavours in Egypt.

The Council had an 18 sq mt stall which promoted the “Incredible Textiles of India” brand. The Council received about 33 enquiries (all types of yarns and fabrics - predominantly for yarns) at the stall and these have been circulated to trade.

Publicity of India pavilion
The Embassy of India in Cairo released a ‘Press Release’ a day prior to the start of the Show which was well covered in the national newspapers. It also helped in creating an awareness of Indian participation at the Show.

Huge banners were placed outside Hall no 4 where the Indian pavilion was located. An overhead banner with the “Incredible Textiles of India” branding was placed over the Indian pavilion signifying the location of the pavilion within the Hall. “Incredible Textiles of India” branded flags were placed along the approach roads towards the venue and boards were also placed along the highways within the city. Company profiles of the participating Indian delegation in English and Arabic were distributed in the form of an exhibitor booklet to all visitors from the Texprocil stall at the pavilion. The Council corporate film on Indian textiles with Arabic sub-titles was also played in the stall on a TV.

Conclusion
The Indian participants were satisfied with the enquiries received and many of them managed to get good sales leads during the exhibition. The demand for Indian cotton yarns still exists in the Egypt market and the most popular counts in cotton yarn are 20s, 30s and 40s. Most of the fabrics come into the country on nomination basis which are then exported to EU and US. For domestic consumption the tariffs are high, almost in the range of 25-30% including denim. It was also suggested that Texprocil should participate in the March 2019 edition of the Show to sustain exposure besides exploring value added products in the Egyptian market.
