Dear Friends,

The ongoing Sino-U.S. trade deal has pressed the 'pause' button as both sides try to work out a negotiated settlement. While the world heaved a sigh of relief, the Brexit vote intensified as 31st October the date by which UK has vowed to leave the EU approaches. These events are having their inevitable effect on world trade as acknowledged by the WTO in a recent report.

Recognizing this the Government of India at the level of Ministries of Finance, Commerce and Textiles have been holding intensive discussions with the stakeholders. As reported earlier, the NCTC a steering committee representing the entire value chain of the textile and clothing industry met the Hon'ble Ministers of Finance, Commerce and Textiles in the last fortnight.

NCTC efforts continue...

National Committee on Textiles and Clothing (NCTC), an umbrella body comprising of leading representatives of all segments in the value chain from fibre to finished goods continued it's efforts to put a unified memorandum of suggestions to the Government to mitigate the current situation faced by the exporters and improve the existing trade situation in India. The NCTC held meetings with Union Minister of Finance Smt. Nirmala Sitaraman on 14th October and Union Minister of Commerce and Industry, Shri Piyush Goyal on 15th October in New Delhi and presented a memorandum containing suggestions on short term measures necessary for the industry.

The NCTC representatives further held a joint meeting at TEXPROCIL H.O. in Mumbai on 17th October for selecting a leading consultancy firm to conduct a study and determine the long term measures required for improving the overall textiles trade situation in the country. Friends, as the NCTC continues its concerted efforts towards bringing in favourable policies and measures, we appeal to all our members to continue sending in their valuable suggestions towards improving textile exports from the country which are currently facing all-time decline.

New Foreign Trade policy

Carrying the process forward, Secretary, Ministry of Commerce will convene a meeting with all stakeholders on 24th October in New Delhi which the Council will also be attending. The Commerce Ministry is preparing the stage for the next foreign trade policy (2020-25), as the validity of the present one ends on March 31, 2020. As you are aware the Council has been actively participating in policymaking and negotiations. For this, we have been closely working with our industry stakeholders to create a dynamic database of imports and exports, so that information can be gathered at the product and market-level to allow for a well-informed decision for trade negotiations.

During this meeting, the Council will represent the various issues that have been consolidated based on the feedback received from our member exporter that include FTP related issues, Customs Procedures and Facilitation, Infrastructural Issues constraining exports, Export related issues, Banking Related issues, Shipping related issues, Tariff Concessions vis-à-vis Non-Tariff Barrier faced by the Exporters in Export Markets, Export Benefits, GST related issues. It is being hoped that the new foreign trade policy in the making will positively contribute to the government plans to increase the share of exports in GDP in coming years.
Meeting on Duty Drawback
The Government has also initiated the annual review of the All Industry Rates of Duty Drawback. The Ministry of Finance has re-constituted the Drawback Committee with Dr G. K. Pillai as the Chairman of the Committee and Shri Y.G. Parande and Shri Gautam Ray as other members. In this regard, the Council was invited by the Department of Revenue, Ministry of Finance for a meeting with the Drawback Committee in Delhi on 15th October 2019. The Drawback Committee wanted to know the technical aspects of the export products such as manufacturing process, raw materials used, value addition etc. The idea was to discuss and develop an understanding of the new developments in the textile industry in terms of product development so as to reflect in the new drawback calculations.

Dr Siddhartha Rajagopal, Executive Director, TEXPROCIL and Shri A. Ravikumar, Joint Director, TEXPROCIL along with representatives from member companies such as Welspun Global Ltd., GHCL Ltd., Trident Ltd., Vardhman Industries Ltd., Arvind Ltd., and Nahar Textiles Ltd. attended the meeting and explained various issues in detail to the committee.

In this regard, the Council has also issued a Circular No. EPS/31/2019-20 dated 4th October requesting all our members to send us data related to exports, domestic purchase of inputs and imported inputs. Other related information has also been sought on any anomaly noticed by our members in the Drawback schedule with reference to the description of the products or the rates which need to be rectified. Since it is a time-bound exercise, we request our members to kindly send us the information at an early date.

Meeting to address a surge in imports
The Council attended a meeting convened by Secretary, Ministry of Textiles Shri Ravi Capoor of various textile EPCs to discuss issues related to trade with Bangladesh, Turkey and Sri Lanka on October 17, in New Delhi. Secretary-Ministry of Textiles, officials from the Ministry of External Affairs and Ministry of Commerce have expressed their concern over the declining export of textiles & apparel to all the three countries while imports from these countries are surging over the past five years. However, it was felt that the macro picture of the bilateral trade which remained in favour of India should be kept in mind by all concerned. Regarding trade with Turkey, it was felt that various options should be explored as part of remedial actions to counter the imposition of unjustified tariff on imports of yarn and fabric from India. As regards trade with Sri Lanka, since Sri Lankan exporters already have more access into the Indian market, it was decided that any further requests from their side to increase quota for duty-free import of garments into India should be carefully examined.

Regarding surging import of garments from Bangladesh, it was decided that the Indian Government should take up the issue with the Bangladesh government to check backdoor entry of Chinese fabrics being converted into garments in Bangladesh and entering into India duty-free. In addition, it was suggested that an industry-cum-government delegation should visit Bangladesh to meet with leading buying houses and Indian importers having sourcing offices in Bangladesh to source fabrics from India for conversion in Bangladesh and export to India, instead of using Chinese fabrics.

Cairo Fashion & Tex - 2019
TEXPROCIL, in pursuance of its annual calendar of events, organised group participation comprising 10 Indian textile companies in the 65th edition of the International Fashion & Textile Exhibition “Cairo Fashion & Tex” held at Egypt International Exhibition Centre from 10-12 October 2019. The Council participated in this exhibition under MAI Scheme of the Ministry of Commerce.

Egypt has been an important partner for India in the textile business. India imports Egyptian cotton and exports cotton yarn apart from manmade filament yarn and manmade staple fibres. India exported around US$ 342 million worth of textile and clothing products to Egypt in 2018. The cotton yarn was the dominant product in the export basket, which was valued at US$ 175 million followed by man-made yarn fabrics valued at US$ 121 million and cotton fabrics valued at US$ 28 million. China is the significant exporter of textile products to Egypt and the major competitor along with Turkey, which is strong in the apparel segment.

The Indian participants were satisfied with the enquiries received and many of them managed to get good sales lead during the exhibition. It was also suggested that Texprocil should participate in the future editions of the Show to sustain exposure besides exploring value-added products in the Egyptian market.

Way forward
Friends, the present challenges are seen both on the export as well as domestic front. With festivities around the corner, our exporters are receiving orders from various parts of the world. However, due to pending refunds, non-availability of credit from banks and cost escalation, the exporters are under pressure to fulfill orders on a timely basis. Release of funds will give instant liquidity to exporters to serve the pending as well as new orders.

To address this, the government has announced a series of measures to include extending the scheme of reimbursement of taxes and duties for export promotion, fully automated electronic refund for Input Tax Credits (ITC) in GST, revised priority sector lending norms for exports and expanding the scope of Export Credit Insurance Scheme (ECIS). An inter-ministerial working group has also been formed to monitor export finance.

While these measures are important we also need to focus on structural issues like extending 1-2 years moratorium or liquidity support for the financially stressed textile units; and requesting CCIL to factor in the international and domestic cotton prices to protect the interests of farmers and cotton textile industry while undertaking the MSP operations.

Friends, in labour-intensive sectors like textiles, for the revival to be visible, there is a need for addressing both internal and external challenges resulting from structural anomalies and factors constraining demand. The Government has a role in resolving the former while trade and industry need to find ways by higher value addition to overcome the latter.

Dr. K. V. Srinivasan
Chairman
:: TEXPROCIL ::
The delegation from the Cotton Textiles Export Promotion Council of India (TEXPROCIL) comprising 10 Indian textile companies participated in the 65th edition of the International Fashion & Textile Exhibition “Cairo Fashion & Tex” held at Egypt International Exhibition Centre from 10-12 October 2019. The Council participated in this exhibition under MAI Scheme of the Ministry of Commerce and the three-day event provided a platform for the Indian businessmen to interact with Egyptian visitors, showcase their products and explore business opportunities.

The Egyptian textile & fashion industry plays a central role in the national economy. Egypt has a strong competitive advantage with its well-known cotton and skilled labor force with its strategic location allowing companies to access Asia, Africa and Europe. Egypt has been an important partner for India in the textile business. India imports Egyptian cotton and exports cotton yarn apart from manmade filament yarn and manmade staple fibres. India exported around US$ 342 million worth of textile and clothing products to Egypt in 2018. The cotton yarn was the dominant product in the export basket, which was valued at US$ 175 million followed by man-made yarn fabrics valued at US$ 121 million and cotton fabrics valued at US$ 28 million. China is the significant exporter of textile products to Egypt and the major competitor along with Turkey, which is strong in apparel segment.

About the Show
Pyramids International has been organizing Cairo Fashion and Tex since 1993. The event is held twice a year, in March (Summer/Spring) and October (Winter/Autumn)

Started in 1993, Cairo Fashion & Tex is held under the patronage of Ministry of Trade & Industry, Government of Egypt, and in association with the Egyptian Chamber of Apparel & Home Textile Industries (ECAHT) and the Ready Made Garments Export Promotion Council. This edition witnessed participation by 350 exhibitors with three country pavilions- India, China and Turkey. Over 8,000 buyers visited the Show over the three days. The Cairo Leather Fair is also collocated with the Cairo Fashion and Tex Show.

Exhibitors’ profile
All types of yarns and fabrics; cotton wear, sports-wear, knitwear and socks; men’s wear, women’s wear, kids’ garments, formal wear, evening wear, home wear, underwear & lingerie.
Visitors’ Profile
Wholesalers, chain stores, boutique owners, garment exporters & importers, agents & distributors, fashion designers, ready to wear manufacturers

India Pavilion and Texprocil stall
The Indian pavilion was inaugurated on 10th October by Ambassador H.E. Mr. Rahul Kulshreshth, along with Mr. Mohamed Abdel Salam- Chairman of Ready-Made Garments Chamber, Federation of Egyptian Industries. Also present at the inauguration were the Joint Secretary, Ministry of Textiles, Shri Nihar Ranjan Dash and the Deputy Secretary, Shri Pankaj Kumar Singh.

The Ambassador along with the Chairman of Ready-Made Garments Chambers interacted with each of the participating Indian companies and gave them insights on the fashion trends and textile industry in Egypt.

On the final day, Shri Nihar Ranjan Dash and Shri Pankaj Kumar Singh interacted with the exhibitors and also noted the different innovations in the exhibited products such as knitted fabrics made from recycled bottles as well as zero dyed coloured & shaded yarns.

The Council had a 9 sq mt stall which promoted the “Incredible Textiles of India” brand as well as the Council’s RBSM “Ind-Texpo” to be held in Coimbatore from 17-19 March 2020. The Council received about 34 enquiries (all types of yarns and fabrics - predominantly for yarns) at the stall and these have already been circulated to trade.

Publicity of India pavilion
The Embassy of India in Cairo released a ‘Press Release’ a day prior to the start of the Show which was well covered. It also helped in creating an awareness of Indian participation at the Show. The RBSM ‘Ind-Texpo’ was also publicized with a view to promote and invite buyers to register for the Show.

An overhead banner with the “Incredible Textiles of India” branding was placed over the Indian pavilion signifying the location of the pavilion within the Hall. Company profiles of the participating Indian delegation in English and Arabic were distributed in the form of an exhibitor booklet to all visitors from the Texprocil stall at the pavilion.

Conclusion
The Indian participants were satisfied with the enquiries received and many of them managed to get good sales leads during the exhibition. The demand for Indian cotton yarns still exists in the Egypt market and the most popular counts in cotton yarn are 20s, 30s and 40s. Most of the fabrics come into the country on nomination basis which are then exported to EU and US. For domestic consumption the tariffs are high, almost in the range of 25-30% including denim. It was also suggested that Texprocil should participate in the future editions of the Show to sustain exposure besides exploring value added products in the Egyptian market.

Escalating trade tensions and a slowing global economy have led WTO economists to sharply downgrade their forecasts for trade growth in 2019 and 2020. World merchandise trade volumes are now expected to rise by only 1.2% in 2019, substantially slower than the 2.6% growth forecast in April. The projected increase in 2020 is now 2.7%, down from 3.0% previously. The economists caution that downside risks remain high and that the 2020 projection depends on a return to more normal trade relations.

The darkening outlook for trade is discouraging but not unexpected. Beyond their direct effects, trade conflicts heighten uncertainty, which is leading some businesses to delay the productivity-enhancing investments that are essential to raising living standards, the WTO forecast stated. Job creation may also be hampered as firms employ fewer workers to produce goods and services for export, expects the report.

Resolving trade disagreements would allow WTO members to avoid such costs, the report added. The multilateral trading system remains the most important global forum for settling differences and providing solutions for the challenges of the 21st century global economy. Members should work together in a spirit of cooperation to reform the WTO and make it even stronger and more effective.

The updated trade forecast is based on consensus estimates of world GDP growth of 2.3% at market exchange rates for both 2019 and 2020, down from 2.6% previously. Slowling economic growth is partly due to rising trade tensions but also reflects country-specific cyclical and structural factors, including the shifting monetary policy stance in developed economies and Brexit-related uncertainty in the European Union. Macroeconomic risks are firmly tilted to the downside.

Due to the high degree of uncertainty associated with trade forecasts under current conditions, the estimated growth rate for world trade in 2019 is placed within a range of 0.5% to 1.6%. Trade growth could fall below this range if trade tensions continue to build, or outperform it if they start to recede. The range of likely values is wider for 2020, ranging from 1.7% to 3.7%, with better outcomes depending on an easing of trade tensions.

Risks to the forecast are heavily weighted to the downside and dominated by trade policy. Further rounds of tariffs and retaliation could produce a destructive cycle of recrimination. Shifting monetary and fiscal policies could destabilize volatile financial markets. A sharper slowing of the global economy could produce an even bigger downturn in trade. Finally, a disorderly Brexit could have a significant regional impact, mostly confined to Europe.

If current GDP estimates are realised, the volume of world merchandise trade should increase by 1.2% in 2019, but this would require a degree of recovery in the second half of the year. Monetary easing in developed countries has not had a major impact to date but is likely to be felt toward the end of 2019 and into 2020.

Other measures, including fiscal policies for surplus countries, are being undertaken to stem the current slowdown. These measures could provide some upside potential to the forecast, especially if outstanding trade disputes are resolved. However, the balance of risk remains on the downside, with trade disputes, financial volatility and geopolitical tensions providing potential triggers for a steeper downturn.

:: TEXPROCIL ::
The 5th edition of Intex South Asia

The Biggest International Textile Sourcing Show of South Asia

- Featuring over 200+ Suppliers from over 12+ countries/regions
- 100+ Indian Textile companies to exhibit with the latest product offerings
- Indian Textile Pavilions organised by FIEO, TEXPROCIL & CHEMEXCIL
- Smart Textiles Showcase by Korea, Taiwan and Indonesia
- Cotton USA as our Innovation Partner to launch its presence in Sri Lanka

Intex South Asia - The most influential and established textiles sourcing show in its 5th edition will take place at BMICH, Colombo, from 13-15 November 2019. This global trading platform for the textiles and apparel industry is endorsed and supported by major industry associations, chambers of commerce and government agencies from Sri Lanka, India, Bangladesh, Pakistan, Taiwan, Malaysia, and other countries.

The 5th edition will witness 200+ quality suppliers from 12 countries and regions showcasing top quality yarns, apparel fabrics, denim fabrics, chemicals, clothing accessories and allied services. The Indian Pavilions at Intex South Asia will be organised by The Cotton Textiles Export Promotion Council (TEXPROCIL), Federation of Indian Export Organisations (FIEO) and Basic Chemicals, Cosmetics & Dyes Export Promotion Council (CHEMEXCIL) under Ministry of Commerce & Industry, Government of India.

Also, Taiwan Textile Federation, KOTRA Colombo and The Indonesian Embassy in Sri Lanka will be organising Smart Textiles Showcase Pavilions respectively at this edition.

The participation from India has grown by 30% from last year making it the largest country pavilion with over 100 Indian companies that would exhibit with their latest product offerings to connect with the leading buyers from Sri Lanka, Bangladesh, India and other international markets.

This year, we would be introducing “Indian Textile Dyes & Chemicals Zone” which would be represented by leading textile chemicals, dyes intermediates, pigments and auxiliaries companies. With the growth of textile dyes and chemicals imports to Sri Lanka, Indian companies under this zone would find it fruitful to connect with their Sri Lankan counterparts to explore business opportunities. With the inclusion of this pavilion, Intex South Asia has successfully integrated the textile value chain at a single global trading platform.

Some of the top companies participating include five time exhibitor PT Sinar Para Taruna from Indonesia along with PT Kewalram International; Grasim Industries (Liva), Sangam Ltd., Birla Century, Garware Bestretch Ltd. from India; PAK Denim Ltd. and MN Textiles from Pakistan, and Eco Transfer Prints and Sigiri Weaving Mills Pvt. Ltd. from Sri Lanka and Yetom New Materials and PHK Knitting from China. Also, from the buyers side, Intex South Asia is inviting delegations from India, Bangladesh, Pakistan, Thailand, Middle-east, Nigeria, Mauritius and more make it a truly global sourcing platform of South Asia.

For the first time, world renowned organisation - Cotton Council International (CCI), the National Cotton Council’s export promotion arm that promotes U.S. cotton in more than 50 countries under its COTTON USATM trademark, will partner with Intex South Asia as its Innovation Partner. This marks entry of Cotton USA in Sri Lanka. Cotton USA will showcase the latest innovations for would be beneficial for the growth and development of textile and apparel industry of our region.

Alongside the exhibition, The Interactive Business Forum (IBF) will deliver high quality market intelligence to support industry efforts to upgrade, move up the value chain and better understand intra-regional trade to help manufacturers gain a competitive edge. Like last year, Intex South Asia’s ‘Interactive Business Forum’ will also feature seminars/workshops covering a range of topics including the latest trends, market developments and technological advances in the industry enabling all to access current global market intelligence.

Ms. Arti Bhagat, Director, Worldex India, said, “There is a clear shift from the west to the east. While the western economies are slowing down, the economies of South Asia are among the fastest growing in the world. Industry and businesses are coming to this region and Intex South Asia is there to speed up this process while ensuring that genuine buyers from around the world meet with quality suppliers at the only international textiles sourcing show of South Asia.”

Therefore, Intex South Asia is the perfect platform to take the industry forward. Come and Explore Business Opportunities at Intex South Asia in Sri Lanka.

PLACE:  
DATE:

Note to Members & RTEs whose RCMC has expired on or before 31.03.2019:

Please apply immediately for renewal of RCMC with the following documents (self-attested copies) on mail or upload them online through member login from TEXPROCIL’s website:

1. Copy of Importer-Exporter Code (IEC) of the company
2. In case of Manufacturer Exporter, a copy of Manufacturing Licence
3. In case of changes in Partners, a copy of revised deed of partnership
4. In case of changes in Directors, a copy of DIR-12 or Board Resolution for those who have resigned and newly appointed.

Members may obtain RCMC & Renewal documents online through member login on TEXPROCIL’s website. The procedure is as follows:

- Go to the Membership Login Menu and click on ‘Enter Now’ at Membership Management Program
- Since you are already registered member of the Council, you need to choose Registered Member at Member login page between New Member and Registered Member.
- Once you click on Registered Member, you should type your email id registered with the Council for the login purpose as User Name and type company’s Importer Exporter Code (IEC) code as password.
- You can view all the details of your company and can get RCMC, renewal documents etc. by clicking on ‘Company Details’.
- You can also upload your export returns online.

(For any further queries please write to Mrs. Smita Dalvi on email : smita@texprocil.org)
