Dear Friends,

It is a matter of great honour for me to have been elected as the Chairman of TEXPROCIL at the 66th Annual General Meeting of the Council that concluded on 5th December 2020. I also congratulate Mr. Sunil Patwari, Managing Director of Nagreeka Exports for being elected as the Vice Chairman of TEXPROCIL.

At the outset, we thank each one of our members for the strong support and confidence placed in us and we will do our best in the coming two years to fulfill the trust and confidence reposed in us.

I am glad to commence this journey on a positive note with the country’s economy showing signs of coming out of a deep slowdown in some sectors of the economy. An encouraging sign is the consistent positive growth in exports of at least the cotton textile segment under the purview of our Council since the month of June 2020. The data for November 2020, has also marked a growth of 8.54 per cent reaching a level of USD 869 million against the exports valued at USD 801 million in the previous year; the same period.

It is only the steep fall in exports during the months of April and May, mainly on account of the severe lockdown imposed in the wake of a spreading pandemic that our overall exports for the cumulative period April - November, 2020 have declined by around 12.87%. Hopefully, if the present positive trends in exports continue during the remaining months of the present fiscal year, we should reach the export level of USD 10.57 billion achieved in the fiscal year 2019-20.

Working towards the Goals

Friends, we are mindful of the vast agenda before us at the Council and will diligently continue to work with all the members in a proactive manner. Towards this end, we hope to devise a strategy, whereby we will reach out to our members especially in textile clusters and other groupings around the country through individual contacts and our product sub-committees.

As a first step in this direction we have also appointed new Chairmen of sub-committees especially for cotton fabrics and madeups. We have a young entrepreneur Shri Nikunj Bagdia, owner of Ken Enterprises Pvt. Ltd. from Ichalkaranji, Kolhapur as Chairman of Fabrics Sub-committee. Shri K. K. Lalpuria, Executive Director and CEO of Indo Count Industries Ltd. has taken over as Chairman of the Madeups Sub-committee. As per the existing convention the Chairmanship of the Yarn Sub-committee is being held by Shri Ashwin Chandran, Chairman of Southern India Mills’ Association (SIMA). The southern region, as is well known accounts for around 55 per cent of yarn production and 60 per cent of exports.

The product sub-committees at TEXPROCIL continue to play a vital role by exchanging views on sectoral issues in a collective manner. The newly constituted sub-committees are being led by veterans and stalwarts who are at the helm of affairs and experts in their respective domains. I am sure that the Sub-committee Chairmen along with the active members will come up with suggestions on likely solutions to resolve the common issues in the best interest of the industry.

Manoj Kumar Patodia
CHAIRMAN

Sunil Patwari
VICE CHAIRMAN

Dr. Siddhartha Rajagopal
EXECUTIVE DIRECTOR
Friends, the membership of these sub-committees is open to all our members. We appeal to each one of you to take a lead in this participative endeavour by becoming a member of the product sub-committee of your choice depending on your main line of business.

TEXPROCIL on Social Media

Today, more than any other time in recent history, social media platforms have become the main source of information. Further the current situation (COVID-19) has acted as a catalyst to the ever-increasing rise in activation of social media platforms not only as a survival tool during the crisis, but also to actively build in its aftermath. Organisations are increasingly feeling the need to have a digital engagement present on social media platforms to connect with stakeholders and reinforce relationships.

In the ‘new world’ where technology thrust has positively encouraged many of our entrepreneurs to embrace innovation and value-addition at the core of their businesses – the Council is aligning itself to assume a wider role by venturing into diverse areas for enhancing its engagement with the stakeholders.

As our immediate past Chairman, Dr K V. Srinivasan observed in his speech at the Council’s 66th AGM “As I demit office, and hand over the charge to my successor, I cannot help imagine a ‘New World’ taking shape where a thrust on technology is changing the way we think and do our businesses”.

Realising the need of the hour, the Council has constituted a new Social Media Committee under the Chairmanship of a young and dynamic entrepreneur Shri Viren Todi, Partner at Brijmohan Purushottamdas Exports LLP. The idea is to enhance TEXPROCIL's current presence on social media platforms including Twitter, Facebook, Linked-In and deliver crisp and articulate content for the benefit of the exporting community.

Friends, we call upon all our member companies to actively engage with the Council by sending us content related to their company’s achievements in their sphere of business activities. At the Council, we intend to popularise the CSR activities undertaken by our member companies that bear social and environmental relevance, skill development, capacity building and other activities aimed at the larger good of the community. Overall the objective is to create a vibrant community comprising our textile companies and resonate their presence across the world using the social media platforms. In this context, we urge all our members to send us content for social media on email to info@texprocil.org (or) rakesh@texprocil.org.

Export Promotion

As you are well aware, the Council is undertaking initiatives on various fronts to support the industry’s effort for revival of demand in the post pandemic world. In view of the COVID-19 led travel restrictions and the cancellation / postponement of physical shows for the year, TEXPROCIL is undertaking focused promotion by using the digital platform, under its flagship event titled ‘Ind-Texpo’, to promote ‘Incredible textiles of India’ amongst the textile buyers across the globe. We are also engaging our members in Webinars on topics of interest to provide an insight to deal with the present uncertainties.

In order to improve prospects of export of textile products from India, TEXPROCIL, at the instance of Embassy of India in Kuwait, organised a ‘Virtual Conference on Indian Textiles’ followed by a ‘Buyer Seller Meet’ on 18 November, 2020. The event also promoted national campaigns like ‘Invest India’ and ‘Atma Nirbhar Bharat’. The response to these initiatives has been encouraging and motivating.

Going forward, TEXPROCIL also organized ‘Ind-Texpo Sri Lanka’ – the virtual Buyer Seller Meet (BSM) on 2nd and 3rd December 2020. The two-day B2B event was supported by the High Commission of India in Sri Lanka and Joint Apparel Association Forum (JAAF) Sri Lanka. 13 Indian companies displayed their choicest products at the virtual booths. 25 buyers from Sri Lanka including significant Brands like Star Garments, Norwood fashions, Crystal Martin Ceylon, Teejay Lanka, etc. visited the virtual event and held meetings with the Indian companies. The participants expressed general satisfaction with the meetings and are pursuing the contacts and leads, off-line.

Considering the encouraging response from the participants in the virtual fairs organised so far, the Council is planning another such event ‘Ind-Texpo Egypt’ in the market of Egypt on 19th and 20th January 2021. Around 12 companies have already registered for the event and many more are expected.

We appeal to each one of our members to support the Council’s initiatives by participating enthusiastically in these online events.

Trade Facilitation

Friends, we are leaving no stone unturned to enhance the Council’s role as a trade facilitator. Despite the day-to-day functioning being affected by COVID related restrictions, the grievance handling mechanism in the Council continues to function with our team of officers offering support to members by ‘Working from Home’.

We continue to receive representations on various issues affecting our exporters including some of the issues like non-availability of containers, continuation of MEIS scheme, implementation of RoDTEP Scheme, GST Refunds, Risky Category Exporters, Amendments in FTP etc. To address these issues the Council organized a Webinar on December 23, 2020 which was well attended.

The objective of the Webinar was to guide the exporters on various aspects related to exports and also to take suggestions from the exporters on difficulty faced by them in their day to day interactions with the Regional offices of DGFT, Customs, Shipping Lines and the GST Commissionerates so that suitable representations can be sent to the Government.

Way forward

Friends, as the year 2020 fades away, we all look forward to a bright 2021. As stated above, positive growth in exports of cotton textile products have been reported since June 2020. Some of our segments like Madeups are also reporting order booking atleast upto March 2021.

We are also hopeful that the changes in the policies on account of the upcoming Union Budget and Foreign Trade Policy will lead to a pro-business environment.

With the arrival of ‘vaccine’ even the health and safety of individuals are likely to be restored to normalcy, eventhough fears of a ‘second’ or even a ‘third wave’ loom large as seen in the sudden lockdowns imposed in Germany, Italy, U.K and other European countries.

Notwithstanding, the scare, we do hope that the upcoming year 2021 will bring fresh tidings as we put away the year 2020. It is in this spirit that we wish all our members ‘A very Happy and Prosperous New Year’!

Manoj Kumar Patodia
Chairman
:: TEXPROCIL ::
The Covid-19 epidemic has brought severe impact on both the supply end and demand end of the global textile and apparel industry.

China’s textile industry suffered but leads the recovery, and shows sufficient resilience and strong vitality in ensuring product supply.

In this transcript of presentation made by Mr. Sun Ruizhe of China National Textile and Apparel Council (CNTAC), he discusses the future of China’s Textile Industry, its status quo and resilience and vitality.

In Jan.-Sep., 1-9

The industrial value-added of major textile enterprises dropped 4.6% y-o-y, further picking up 0.9 percentage point compared with Jan.-Aug. period. Production maintains steady recovery. Domestic market keeps recovering.

In Jan.-Sep., 1-9,

The T & A exports increased 9.4% y-o-y to US$ 215.78 billion. The textiles export rose 33.7% to US$ 117.95 billion, while that of apparel dropped by 10.3% to 97.83 billion. Export rebounds, however, investor’s confidence remains low.

In Jan.-Aug., 1-8

Major textile enterprises’ revenue dropped 13.4% from a year earlier; profits down 14.2%. Operation sees improved quality and performance.

In Jan.-Aug., 1-8

The retail of clothing, head & foot wear, knitted goods by major retailers dropped 15.0% y-o-y, narrowing by 4.6 percentage points lower than the first half.

In Jan.-Sep., 1-9

The investment in fixed-assets of the textile industry saw a 20.4-percent decline year-on-year. Online sales turned negative growth to positive growth and the online sales of clothing commodities picked up 1.1% year-on-year; Taobao marketplace data show that online turnover of apparel and shoes & hats amounted to CNY 55.6 billion in this July, up 74% year-on-year.

China’s textile industry contributes to global epidemic control

China’s export of epidemic prevention materials

- Mar. 15 – Sep. 6, more than 1.4 Bn. Protective suits
- Mar. 15 – Sep. 6, more than 151.5 Bn. Masks
- Mar. 15 – Sep. 6, more than 200 countries and regions exported

(Source: Ministry of Commerce, China Chamber of Commerce for Import & Export of Medicines & Health Products)

Main destinations of China’s exported epidemic prevention material

- Jan. – Jul., US$ 7.81 Bn. mask from China comprised 87.3% of US total mask imports
- Jan. – Aug., 357.53 Bn. yen mask from China comprised 92.0% of Japanese total mask imports
- Jan. – Jun., 13.63 Bn. euro mask from China comprised 92.0% of EU total mask imports

(Source: CNTAC)

The textile & apparel industry needs to adapt to a different situation under the epidemic

- Increasing risk of economic recession
- Profound readjustment of industrial chain
- Accelerated pace of digitalization
- Quicker step of responsible development

Increasing risk of economic recession

The COVID-19 pandemic has brought the world economies into synchronized recessions.

- Data from the World Bank released in June expects 92.9 percent of world countries to fall into recession.
- IMF predicted in October that the global economy will drop 4.4% in 2020.

PRESS RELEASE

New Office Bearers atTEXPROCIL (2020-2022)

Pursuant to the 66th Annual General Meeting of TEXPROCIL held on 5th December, 2020, Shri M. K. Patodia was elected as Chairman, TEXPROCIL and Shri Sunil Patwari was elected as Vice Chairman, TEXPROCIL.

COVER STORY

Quicker steps for responsible development

- Epidemic spread has facilitated green production and green lifestyle to take shape.
- For many countries, “green recovery” and “green stimulation” have become an important choice for economic re-start.
- Europe - Next Generation EU, a funding of 750 bil. Euro and mid-term budget of 1.1 tril. Euro for 2021 to 2027. Green transition is a key topic in this package. European Green Deal, to transform Europe into carbon-neutral by 2050.
- China - China will take more intensive policies and measures to achieve the peaking of carbon dioxide emissions around 2030 and achieve carbon neutrality before 2060.
- Social responsibility becomes an integral part of enterprise investment value.
- As per McKinsey, Consumers pay more attention to sustainable development, green consumption. Due to the epidemic, consumers have begun to change their consumption behaviours. 57% Consumers have made major changes to their lifestyles, so as to reduce the impact on environment. > 60% Consumers spare no effort in recycling and purchasing products that use eco-friendly packages.

New Changes of China’s Textile & Apparel Industry under New Circumstances

1. “Data + manufacturing”: to build a more flexible supply chain
2. “Contents + products”: to develop consumer preferred services
3. “Industrial cluster + new business model”: to establish a collaborative innovation eco-system
4. “Domestic market + international market”: to create a mutually-promoted twin circulations

New Thinking on the position of Chinese textile industry

China will enter into the 14th “Five-year Plan” period. Standing at the new height of building a community with shared future for mankind, China’s textile industry should strengthen global cooperation and find its new position in social & economic development.

Future of China’s Textile Industry

By SUN RUIZHE - CNTAC

New position
- A competitive industry in international cooperation and integrated development
- A fundamental industry for solving people’s livelihood and beautifying life
- A pillar industry of the national economy and social development

Outlook of China’s Textile Industry

Responsible development
- Based on the social responsibility principles of people-oriented, environment friendly and fair competition, promote sustainable.
- Enhance the industry’s competence in green design, green manufacturing, green management and green consumption, and improve the ability to response to environmental challenges.

Innovative development
- Promote the R&D and application of materials, products, process and equipment, facilitate the industry to extend to new areas.
- Promote the integration of local culture with global trend.
- Promote the integration and application of information technology.

Coordinated development
- Reduce trade barriers and promote cross-border flows of resources incl. product, technology, production capacity, brand, capital, etc.
- Promote the docking of internal and external resources and markets, and reduce conversion costs.

Intensive development
- Develop cluster economy and platform economy, promote the gathering of resources including talent, technology, capital and professional service.
- Through M&A and alliance, to integrate high-quality resources and extend the business chain.

Source: This article is based on the presentation made by: Mr. SUN RUIZHE of CNTAC at Hybrid ITMF Annual Conference 2020.

:: TEXPROCIL::
US restrictions on some textile imports from Xinjiang in China could augur well for the Indian textile exporters: ICRA

- Xinjiang is a major cotton producing belt which accounts for an estimated 80-85% of China's cotton output.

- Several major apparel exporters from India have either already started receiving increased orders or are in active discussions with large international buyers looking at increasing their sourcing from India.

In a recent announcement on September 14, 2020, the US has imposed restrictions on the import of certain products originating from the Xinjiang Autonomous Region in China, citing concerns on illegal and inhumane forced labour in the region. ICRA expects the development to benefit domestic textile exporters.

While there were speculations of a more broad-based ban on the products originating from the region, the restrictions have been limited to a few entities for now. Besides banning imports of other product categories, including hair products and computer parts, the ban includes restrictions on some entities from the region involved in manufacturing apparels and producing and processing cotton. Xinjiang is a major cotton-producing belt, which accounts for an estimated 80-85% of China's cotton output.

Experts at ICRA believe that while the immediate impact, in terms of the market catered to by the identified entities, is not quantifiable, this development could have major repercussions for the global textile trade. With China being the leading apparel exporter, accounting for more than 35% of the global trade and more than three-fourths of China's cotton originating from the Xinjiang region, any extension of the ban to a wider base in China could trigger a material shift in global apparel trade in coming years.

Amid concerns on origination of the coronavirus from China, there have already been reports of several international buyers looking at diversifying their sourcing base across countries. As per ICRA's channel checks, several major apparel exporters from India have either already started receiving increased orders or are in active discussions with large international buyers, looking at increasing their sourcing from India. The shift, which was previously expected to take place gradually over the medium term, could be expedited in the light of this recent development.

While over the past few years, Vietnam and Bangladesh have been the key beneficiaries for a shift away from China, India also stands to gain from any such market opportunity which may arise, given its strong presence in the cotton-based apparel.

Widening of the scope of the ban could, however, be practically challenging as the existing systems are not adequate to track the origin of the raw material. Accordingly, cotton originating in the Xinjiang region could end up as yarn or fabric in another region/country, which could be processed further to manufacture apparels. Further, there could be likely retaliatory actions by China, as seen over the past couple of years amid the ongoing US-China trade war, which could prevent widening of the scope of the ban. This is more so considering the significant dependence of the US on China for its cotton exports. This could also have implications on the progress on the trade deal, which was executed in January 2020, to settle the ongoing trade war.

Collaboration Opportunity for Textiles in Egypt

E-Serve No.: 255 of 2020 | Date: December 21, 2020
Sub: Inviting Indian companies for mutual collaboration in the field of dyeing and finishing of textiles in Egypt

Dear Member,

This is to inform you that the Council has received a letter from the Minister’s Assistant for Technical Affairs & Follow Up-Ministry of Public Business Sector-Egypt. The letter was received through the offices of the Embassy of Arab Republic of Egypt, New Delhi inviting Indian companies for mutual collaboration in the field of dyeing and finishing of textiles in Egypt.

The letter states that they are looking for “Indian expertise & skill in setting up dyeing and finishing facility in Egypt on a mutual contractual basis” and would like to arrange a video call meeting to discuss ways of collaboration on this project with the interested Indian company/companies.

Members interested in taking up this project may kindly write to the Council to Mr Shailesh Martis / Mrunal Sawant at shailesh@texprocil.org / mrunal@texprocil.org latest by 29th December 2020.

Regards,
Dr. Siddhartha Rajagopal
Executive Director

<td>1080/-</td>
<td>7080/-</td>
</tr>
</tbody>
</table>

(B) Payment of Renewal Subscription Fees

Payment of Renewal Subscription fee for the year 2019-2020 and 2020-21 can be made online. Bank details for online payment are as follows:

- **Account Name**: The Cotton Textiles Export Promotion Council
- **Bank**: Bank of Baroda
- **Branch**: Opera House Branch, Mumbai-400004
- **Account No.**: 04090200000927
- **IFSC Code**: BARB0OPERAH (Fifth character is zero)

After payment, send the details of online payment by Email in the following format on the following email ID: smita@texprocil.org.

<table>
<thead>
<tr>
<th>Company Name</th>
<th>Registration No.</th>
<th>GST No.</th>
<th>UTR No.</th>
<th>Date of Transaction</th>
<th>Name of Bank</th>
<th>Amount of Transfer</th>
</tr>
</thead>
</table>

Also send a scanned copy of Bank Payment Advice by email on the Email ID: smita@texprocil.org. Immediately after receiving the Payment details, the membership will be renewed.

(C) Renewal of RCMC that has expired

We are glad to inform you that the Council has put in place an online system for renewal of Registration-Cum-Membership Certificate (RCMC). Renewal of RCMCs can be made online and after processing, the Renewed RCMC will be available to you online. The Original renewed RCMCs will be sent to you once our office opens and starts functioning after the lockdown.

**Steps to be followed:**

Upload self-attested scanned copies of the following documents online on TEXPROCIL’s website (www.texprocil.org) through Member login and send a renewal request by Email on the Email ID smita@texprocil.org (In case the RCMC has expired):

1. Copy of your Import-Exporter Code (IEC)
2. In case of Manufacturer Exporter, a copy of Manufacturing Licence
