Date: Monday, 16th March 2026

Time: 03:00 PM onwards

As you are aware, the textile industry is increasingly required to demonstrate social compliance and responsible sourcing practices, particularly in global markets. FSSC 24000 is a globally recognized social management system certification that helps organizations ensure fair, safe, and ethical working conditions, which are now widely expected by international apparel brands and retailers.

The webinar will provide an overview of the FSSC 24000 framework, its key requirements, and its relevance for the textile and cotton value chain, including benefits such as improved worker welfare, enhanced credibility with global buyers, and strengthened ESG compliance.
